

Pittwater Finale 2021 Race Report

Event: 4th December 2021

The 2021 Harbour Series closed out the year where it began, The Pittwater Challenge. Appropriately named the Pittwater Finale 2021, we saw 118 paddlers enrol across singles, doubles and OC categories to compete on a short or long course. 95 over those paddlers took to the water to make up for the disappointment of having the events for race 3 & 4 of the series cancelled due to Covid.

The weather report leading into the day was causing some concern however the morning turned out to be perfect conditions for an event on the Pittwater with calm waters, a lite southerly breeze and cloud cover. Keen paddlers started turning up early full of energy and clearly pumped to finally be able to compete amongst their peers.

With such ideal conditions there wasn't any unexpected issues for paddlers to navigate so the paddling was fast and furious all the way, rounded off with titanic battles to the finish line across singles long and short course and doubles.

In all it was a terrific morning, with an upbeat vibe, great conditions and solid performances on the water.

Phots and full race results are posted on the Paddle NSW website [2021 Harbour Series | PaddleNSW](#)
